

We learned lots of new words. They taught us about:  
camouflage, food chains,  
predators, prey, habitat

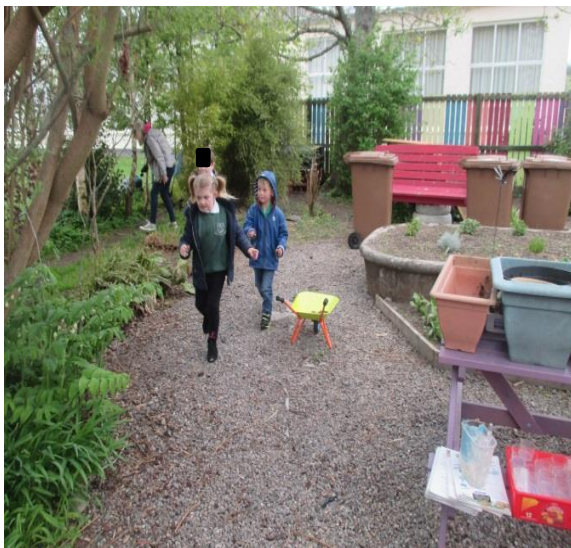

“Habitat means house for the animals” (Milly)

“The animals are same colour as stuff, they can go on it so other animals can’t see them – that’s camouflage” (Jack)

“I had a deer picture and we had to find the grass” (Mae)

We had to look all over the garden for bugs – some of them only had eyes showing!

“I found a bee” (Archie)

Some of us were predators and we had to catch the other boys and girls who were the prey – it was such fun!

“I was chasing – somebody was the rabbit and I was catching somebody and I was a wolf” (Lyle)
