

22.3.19

Our role play area has been turned into a hospital and so we were so excited to have a visit from a real nurse! Owen's mum Fiona came in to the Nursery dressed in her scrubs and brought in lots of things she uses in her job as a theatre nurse at Raigmore Hospital. She showed us her mask and her hat and explained how important it is to keep all the germs away from the patients.

She has to wear a gown, a hat and a mask to protect her eyes before she goes in to the operating theatre.

We even got to try some on and pretend we were working in a real hospital!

“If you’ve hurt your head you need to put a bandage on”  
(Maddie)

“I fell off my Frozen bike and broke my leg!” (Eilidh)

“When we put the bandages on you won’t feel it” (Evie)

“I gave him an injection because he fell off the wall” (Julia)

We learned that you are not allowed anything to eat or drink before an operation. An anaesthetist gives you a sleepy potion through a mask to help you go to sleep and you won’t remember anything. “It was strawberries” (Imogen)

During an operation you are given fluids to keep you hydrated.

“I want to be a nurse and to look after people” (Evie)
