Finger Gym

Interest table 't'

Rationale

Research has shown that children whose parents/carers are involved in their learning enjoy more success, have a better attitude and develop more confidence around their learning. It is hoped that this document will support this process. Please be aware that the teaching content is subject to change as staff respond to learner interests and needs, through a child-centred approach which aims to develop successful learners, effective contributors, responsible citizens and confident individuals. All feedback welcome.
